

# Proctological Instruments

## RELIABLE INSTRUMENTS FOR BETTER DIAGNOSIS

The HEINE Proctology Range includes both single-use and reusable instruments. Illumination is by HEINE F.O. Projector, 6V Lamp Handle or BETA 3.5V Handle with illumination adaptor.

Single-use instruments effectively avoid cross-contamination. Annular light transmission is through the tube wall to the distal end. The light is homogenous and reflex-free and up to five times brighter than that of conventional single-use systems.

Single-use HEINE Ano-, Procto- and Sigmoidoscope tubes can all be used with the HEINE illumination head. The same applies to certain systems from other manufacturers. The insertion depth can be read off the tube itself.

## HEINE Anoscope/Proctoscope illumination head

[01]

**One single illumination head for all the tubes shown on this page.**

For 2.5V or 3.5V handle or Fiber Optic illumination with Fiber Optic projector and cable.

- **A wide range of tubes with either direct or 90° direction of view available.**  
Many different diagnostic and treatment methods are possible.
- **Tubes can be rotated through 360°.** Select the ideal position for treatment or examination.
- **Viewing window and swivel lens both offer 2x magnification.**  
High-resolution image.
- **Smooth, rounded surface.** Easy to clean. F.O. version can be cleaned with conventional disinfectants.
